

OUTCOME NOTES

Feedback Session 3: Information Systems/Databases/Websites: What do State/Local/Tribal agencies need for innovative & voluntary programs?

Please focus the discussion to provide a short list of “headlines” (primary issues, major problems, demonstrated successes to emulate, etc.) and recommendations for EPA action (program or tool development, facilitation of State action, etc.).

SESSION “HEADLINES”:

- What kinds of tools will help you with your job?
- What have you seen that worked or didn’t work?
- Have problem knowing what databases are out there.
- Have problem knowing what Tier 2 nonroad equipment is available.
- Have problem finding clean air images and text.
- Would like to have web collaboration tool to learn about what EPA tools are out there.

RECOMMENDATIONS FOR ACTION (Declarative Statements):

- Create focus group (work with STAPPA and others)
- Create listserv for Voluntary/Innovative Programs (work with STAPPA)
- Move forward with AirShare
- Create central site for EPA data/tools
- * Provide images/text for “It All Adds Up to Clean Air”
