

SUSTAINABLE SKYLINES KANSAS CITY

EPA's Role:

- Convening interested stakeholders
- Finding shared interests
- Using a collaborative process to choose projects
- Meeting the priorities of multiple organizations

SUSTAINABLE SKYLINES KANSAS CITY

MARC's Role:

- Implementing Sustainable Skylines group's chosen projects
- Linking to other sustainability initiatives
 - America's Green Region
 - Greater Kansas City Chamber of Commerce's Climate Protection Partnership
 - Kansas City, Missouri's Climate Protection Plan
 - Ozone Action Plan

Selected Projects:

- Five Green Things
 - Actions by individuals to reduce our environmental impact and become a green region

- What if Parking Lots were Parks?
 - Reducing the urban heat island effect and decreasing stormwater runoff

**Do five green things.
Wear one green button.**
